Dear Sir:

In response to the Notice of Allowance mailed May 3, 2006, enclosed are three (3) replacement sheets of formal drawings in connection with the above-identified patent application.

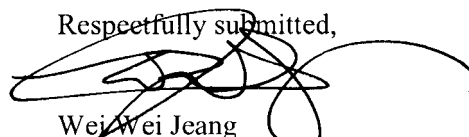

The typographical error for the word "interrogator" has been corrected in Figure 1.

Figure 3(a) has been amended to show reference (2) as part of Figure 3(a). The radio frequency module 12 provides the radio interface to the associated types of tag(s) 2, 4, 6 or 8. Therefore, applicants believe amendment to the detailed description is not required.

Figure 4(a), reference (106) depicts the mixer stage and the corresponding mixers are shown individually as 107a, 107b and 107c. Similarly, reference (108) depicts the amplifier stage and the corresponding amplifiers are shown individually as 109a, 109b and 109c. Applicants believe amendment of Figure 4(a) is not required.

Applicants enclose a marked-up copy of the drawings showing amendments and a Replacement Sheets incorporating amendments. Applicants respectfully request approval.

Respectfully submitted,

  
Wei Wei Jeang  
Registration No. 33,305

Date: August 2, 2006
